Decide in case your goal is to get vast distribution and maximum exposure. This objective is geared toward drawing clients to your online business or service, or to establishing the credibility of your reputation. If that is your main goal, it's best to purpose to maintain your price on the low side. Some authors have even priced their ebooks at a revenue loss to attract a excessive number of new customers. The secret's to discover a value that maximizes your income and the number of books you sell.

If you wish to see large income over buyer draw, intention for an audience that's searching for simple options to their issues at a low price. In case your guide is aimed at fixing one explicit problem somewhat than basic recommendation, then you'll be able to cost more. Begin at the highest value the market will bear to usher in the largest income, and plan to low cost the e book a number of times all through the year.

Then work out for each web page the conversion ratio between visitors to your web site and gross sales of your book. This may let you know what your optimum price is.
