An effective approach for figuring out a price is to ship out a survey to your present customers. If these clients have already bought an e-book from you, ask for his or her opinion when it comes to price. Do this by creating a sales page for the new guide, but do not embrace a price on that page.

As an alternative, add numerous links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out costs by making a variety of duplicate sales pages with totally different costs on each page. Make certain your gross sales copy is strictly the same on each web page, and includes your promoting-handle sentence. Then figure out for every web page the conversion ratio between guests to your website and sales of your book. This can tell you what your optimum value is.

In the end, when you've written a e-book that solves a drawback or presents a brand new technique, your book will bring in both site visitors and profits.
