Apart from selling your books assiduously on-line, there are a number of different methods that may enable you to sell more books.

One is to offer one thing away without cost along with your e-book, corresponding to a beneficial bonus item. Or bundle several ebooks underneath one worth, which lowers the value for each book if they were sold separately.

An effective technique for determining a price is to send out a survey to your current customers. If these prospects have already bought an e book from you, ask for his or her opinion when it comes to price. Do that by creating a gross sales web page for the brand new e book, however don't include a worth on that page. Instead, add a variety of hyperlinks to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

Another technique is to check out prices by making a variety of duplicate sales pages with completely different prices on every page. Make sure your gross sales copy is exactly the identical

on each web page, and includes your promoting-handle sentence. Then determine for every page the conversion ratio between guests to your site and gross sales of your book. This will tell you what your optimum price is.

Finally, if you've written a e-book that solves a problem or presents a new method, your ebook will usher in both traffic and profits. So make sure to write that selling-deal with sentence that sums up what drawback your e book solves and what the benefits of your 560 e book can be to the customers who purchase it.
